

# Plato Chakma

B.Sc. in CSE | Islamic University

Results-oriented cybersecurity professional with a strong focus on Network Operation Center (NOC) and Security Operation Center (SOC) roles. Possesses extensive experience in network security, digital forensics, and incident response. Proven ability to develop and deliver comprehensive cybersecurity training programs. Strong team player with excellent communication, technical report writing, and problem-solving skills. Passionate about enhancing cybersecurity measures and ensuring full protection against threats.

## EDUCATIONAL QUALIFICATION

### B.Sc. in Computer Science and Engineering (CSE)– 2022

Islamic University

- CGPA: 2.95 out of 4.00

### HSC in Science– 2014

Chittagong City Corporation Premier College

- GPA : 3.80 out of 4.00

### SSC in Science– 2012

Hatey Khari High School

- GPA : 4.75 out of 5.00

## WORK EXPERIENCE

### Virtual Intern

ANZ Australia

June 2023 – June 2023

- Performed social engineering investigations, focusing on identifying phishing attempts, pretexting, and other social engineering techniques.
- Developed and executed strategies to prevent human-based security risks, educating team members on best practices and risk mitigation.
- Conducted digital forensic examinations using Wireshark, capturing and analyzing network traffic to detect malicious activities.
- Improved incident response practices by analyzing forensic data and implementing proactive measures to prevent future security breaches.

## TRAINING

### Participant, Cybersecurity Training Program | Jun 2023 – Sep 2023

Extent IT Limited (EDGE Project)

- Coordinated the EDGE project, focusing on delivering an intensive basic cybersecurity course to participants.
- Developed course content on network security, cryptography, and risk management.
- Scheduled and managed training sessions, ensuring smooth execution and timely delivery of course modules.
- Engaged with participants to understand their learning needs and provided personalized support throughout the course.
- Organized sessions on cyber threat landscapes, discussing different types of attack vectors and defense mechanisms.

### TechnoHacks Edutech India | Sep 2023 – Oct 2023

#### Skills Acquired:

- Network security assessment and auditing.
- Vulnerability identification and mitigation.
- Web application security analysis.
- Cryptographic analysis and password policy evaluation.
- SQL injection detection and prevention.
- Technical report writing and documentation for security issues.

## EXTRACURRICULAR ACTIVITIES

### Membership Development Coordinator | 2021 – 2022 | IEEE Computer Society

Islamic University SB Chapter

### President | 2018–2020 | Jumma Students Welfare Association, Islamic University

### Achieved Honorary Award, Competitive Programming Contest CSE IU– 2016

plato.chakma@gmail.com

platochakma.com

Pallabi, Dhaka

## CORE COMPETENCIES

Network Security Assessment

Vulnerability Identification

Vulnerability Assessment

Web Application Security

IP Addressing

Security Awareness

Network Monitoring

Risk Mitigation Strategies

Network Traffic Analysis

Technical Report Writing

Social Engineering Investigations

## TOOL & TECH

Nmap TCP/UDP

Nessus Acunetix

VMware/Virtual Box

Burpsuite Wireshark

Metasploit Splunk

Sales target execution

Python & C Linux Basics

CISCO Packet Tracer

## COURSE & CERTIFICATIONS

### SOC Level 1– Ongoing

TryHackMe

### Google Cybersecurity

### Microsoft Cybersecurity Analyst

### Google IT Support from

Coursera
